## ***Global Finance Names The World's Best Securities Services Providers 2017***

NEW YORK, May 19, 2017 – *Global Finance* magazine has announced its selections for the World's Best Securities Services Providers 2017, which includes the fifteenth annual list of the World's Best Subcustodians by country. The awards also honor sectors such as: Prime Brokers, Securities Lenders, Collateral Managers, Trust Services Providers and Depositary Receipt Banks. A full report on the selections will appear in the July/August issue of *Global Finance* and online at [GFMag.com](http://GFMag.com).

*Global Finance's* editorial board, making use of market research, input from expert sources and entry information from banks, selected the winners from the institutions that reliably provide the best services in local markets and regions. Our criteria included customer relations, quality of service, competitive pricing, smooth handling of exception items, technology platforms, post-settlement operations, business continuity plans and knowledge of local regulations and practices.

"Securities services providers are coming to grips with new technology and regulatory pressures in a rapidly changing global environment. Global investors need to work with firms that are the safest and have the most in-depth knowledge of local markets and regulatory regimes," said Joseph D. Giarraputo, publisher and editorial director of *Global Finance*.

"These awards cover the full breadth of securities services at the global level—from custody and collateral management to prime brokerage, securities lending and corporate trust services. We recognize those providers that do the best job of meeting their clients' needs in increasingly complex global markets."
