However, as prospective award winners know more about their capabilities than we will be able to discover, an entry always improves chances of winning. Performance will be judged over the period March 1, 2012 through March 1, 2013. Those making submissions should provide concise information in the following areas:

1. Volume, market share and geographical coverage – submit data to describe the scale of your Islamic financing operations, including any league tables or other comparisons with competitors
2. Commitment to the business – submit data on the number of employees dedicated to Islamic financing and capabilities in specific products
3. Technology – examples of leading-edge technology deployment
4. Reporting - how often do you report your financial assets, shariah assets and financial performance
5. Range of products and innovation
