

## Global Finance Names The World's Best Supply Chain Finance Providers 2019

NEW YORK, January 16, 2019 – *Global Finance* magazine has announced its twelfth annual rankings for the World's Best Supply Chain Finance Providers in an exclusive survey to be published in the February 2019 issue. The honorees were revealed at an awards luncheon today in London at the BAFT Europe Bank to Bank Forum.

*Global Finance's* editorial review board—with input from industry analysts, corporate executives and technology experts—selected the best providers of supply chain finance and management services. A variety of subjective and objective criteria were used for choosing the winners. Factors considered included: market share and global coverage, product innovation, customer service, technology, execution skills and client-specific implementations.

“Supply chain finance is harnessing the power of distributed-ledger technology to automate paper-based processes and boost productivity in the international movement of goods and payments. Our Supply Chain Finance Awards honor the leaders and innovators in this rapidly changing field that promises new levels of efficiency as it integrates finance, information and physical trade flows,” said Joseph D. Giarraputo, publisher and editorial director of *Global Finance*.
