

Global Finance Names The World's Best Supply Chain Finance Providers 2017

NEW YORK, January 18, 2017 – *Global Finance* magazine has announced its tenth annual rankings for the World's Best Supply Chain Finance Providers in an exclusive survey to be published in the February 2017 issue. The honorees were revealed at an awards luncheon today in Madrid during the BAFT Europe Bank to Bank Forum.

Global Finance's editorial review board—with input from industry analysts, corporate executives and technology experts—selected the best providers of supply chain finance and management services. A variety of subjective and objective criteria were used for choosing the winners. Factors considered included: market share and global coverage, product innovation, customer service, technology, execution skills and client-specific implementations. In addition, a poll of *Global Finance's* readership was conducted in order to increase the accuracy and reliability of the results.

“Supply chain finance is a hotbed of blockchain application development, with much that has moved past proof-of-concept stages to prototypes, pilots and products. The coming year should see more interesting developments emerging” said Joseph D. Giarraputo, publisher and editorial director of *Global Finance*. “At this time of rapid industry change, our awards aim to identify the partners best able to help multinationals identify and implement innovations—while also keeping up with regulatory and market shifts.”

A list of the 2017 World's Best Supply Finance Providers global winners follows on the next page.
