

### PRESS RELEASE

## *Global Finance* Names The Innovators 2016 - Transaction Services

NEW YORK, April 26, 2016 - *Global Finance* magazine has announced The Innovators 2016 - Transaction Services. This is the publication's fourth annual listing of global firms that are engendering innovation in treasury and transaction processing.

The Innovators 2016 - Transaction Services list will be published in *Global Finance's* The Innovators Special Issue in June 2016. In addition to Transaction Services, *Global Finance's* editors will recognize innovation in Corporate Finance, Islamic Finance, Trade Finance and Foreign Exchange.

"In transaction services, the pace of digital enhancements with direct impact on the final customer, whether business or consumer, is ratcheting up," said Joseph D. Giarraputo, publisher and editorial director of *Global Finance*.

"Much is being gained in speed and efficiency, but applications that improve information flows, thus enabling smarter decision-making, will ultimately deliver the greatest value."

All selections were made by the editorial board of *Global Finance*. The board considered nominations and submissions, key research and the input of experts in evaluating those banks and service providers that stand out for their transformative products and solutions. The OECD's Oslo Manual of Innovation was referenced when considering firms for inclusion. The Oslo Manual spells out four types of innovation: product innovation; process innovation; marketing innovation and organizational innovation.

The full list of The Innovators 2016 - Transaction Services can be found on the following pages.
