

Global Finance Names The Innovators 2017 - Trade Finance

NEW YORK, May 5, 2017 - *Global Finance* magazine has announced The Innovators 2017 - Trade Finance. This is the publication's second annual listing of global firms that are engendering innovation in the trade finance sector.

The Innovators 2017 – Trade Finance list will be published in *Global Finance's* 30th Anniversary issue, in June 2017, which will focus on thirty years of innovation in the financial industry. In addition to Trade Finance, *Global Finance's* editors will recognize innovation in Corporate Finance, Foreign Exchange, Islamic Finance and Transaction Services.

"Managing risk is a key focus for innovations in trade finance," said Joseph Giarraputo, publisher and editorial director of *Global Finance*. "The blockchain breakthrough is rapidly progressing to bring concrete new ways to know your customers while remaining in compliance throughout the supply chain."

All selections were made by the editorial board of *Global Finance*. In evaluating those banks and service providers that stand out for their transformative products and solutions, the board considered nominations and submissions, key research and the input of experts. The OECD's Oslo Manual of Innovation was referenced when considering firms for inclusion.
